The Tools Programmer will develop, enhance and optimize existing and new tools.

- Manage, develop, and drive the tools and pipelines to be delivered
- Improve the existing processes and standards in tools programming

1) Tools development

- Responsible for the development, maintenance, documentation and overall quality (including implementation, performance, stability and usability) of tools and modules
- Identify development needs within the company and implement effective & innovative solutions

2) Tools processes and standards

- To abide by and contribute to the development of standards, procedures and processes
- To contribute, maintain and use shared code, tools components or processes where applicable

General

- Autonomous and self-responsible approach to work
- General knowledge of databases (SQL, NoSQL)

For Seniors:

- 8+ years experiences in the video game industry or experience in related high-tech industries
- Expert in debugging and developing high performing application in C++ / C# (WPF, Winforms)
- Experience in working with large scale teams, preferably in an international Co-Development environment
- Ability to innovate and bring change to large codebase
- Ability to mentor and review other programmers

- Strong knowledge of Python scripting
- Knowledge of different testing framework (DTest, Catch2, ...)

What we want to offer you:

We want to build a studio in which everyone feels inspired, empowered and connected. We believe developers do their best work when they feel empowered. We thus aim to give you a lot of autonomy. In return, we expect you to be self-responsible and stay on top of your game by continuously developing your skills. Furthermore, we know it is important for a developer to feel comfortable. With that in mind, we aim to provide a variety of everyday benefits which we hope will help you feel great including:

- Flexible working hours
- External training, education in our in-house guilds and knowledge sharing with other project teams
- Fresh fruit, discounted gym membership, support for child care, company pension scheme
- Share ideas! = Working in an innovative and international company

If you are passionate about video games and would like to work with like-minded professionals with an international team, please apply via our career portal. Applications should include your resume, a cover letter with the earliest starting date, your salary expectation and why you would like to join us.
