What you will do:

- Perform daily tests and responsibility for quality and stability of new game content, new features and upcoming releases
- Isolate and reproduce the bugs to assess gravity and probability based on Ubisoft's standards, and suggest solutions
- Working alongside developers, artists and designers to perform specific tests;
- Report and monitor software errors (bugs) and game design problems in a bug database
- Verify fixes applied by developers (bug regression)
- Validate high risk changes before they are integrated into the main version in order to ensure stability and basic functionality
- Deliver feedback and reports to the development team, on a regular basis as well as on-demand
- Monitor closely validation sequences

What you should bring:

- Experience on a similar position for at least 1 year
- Excellent knowledge of English both spoken and written
- A strong understanding of development processes and the needs of different departments throughout a development cycle
- Good communication skills and interpersonal skills
- Adapt easily to platform and workload variations
- High expertise in writing test-cases and setting up test procedures
- Open to changes and self-improvement
- Proactive and independent working manner
- Knowledge of gaming platforms (Xbox One, PS4, PC, etc.)
- Experience with MS Office, Confluence, Sharepoint
- Experience with defect & test case management tools (e.g. JIRA, TestRail)

Nice to have:

- Experience in working with Automation tools

Your benefits

- Relocation support: We offer financial support in form of a cash allowance and assistance with accommodation search via our relocation partner. For international candidates we offer visa assistance.
